- 10:00-11:00 Water Efficiency and Drought Response for School Districts**  
Mark Cassalia, Denver Water  
*Water efficiency and drought response are entirely different. We will discuss how Denver Water worked with school districts to respond to the 2013 drought (drought response). We will also discuss the latest research on baseline water use benchmarking for schools (water efficiency).*
- 11:00-11:20 Colorado Energy Office Update**  
Emily Artale, PE, CEM; Energy Engineer  
Trident Energy Services, Inc.; Consultant to the Colorado Energy Office  
*The Colorado Energy Office (CEO) helps Colorado K12 school districts improve building performance and comfort, and lower energy (and water) use and costs through the Energy Management Assistance Program (EMAP). EMAP is a step-by-step approach to developing and implementing a customized "home-grown" energy management plan. Through EMAP, CEO works with schools to develop energy goals, outline a strategy to meet those goals, perform feasibility level energy assessments, and support implementation at no charge.*
- 11:20-12:00 Roundtable Discussion**  
A time to share current projects & new initiatives, ask questions, and share knowledge
- 12:00-12:30 Lunch and Continued Roundtable Discussion**

*Thank you Jim Faes and DPS for hosting the meeting and generously providing food and refreshments!*
