---

1. Welcome and Refreshments
2. Craig-review of energy mgmt/sustainability survey. APS/Craig is working on redefining energy mgmt./sustainability. School based focus with Area Coordinators. Working to show energy savings of 2-3 times energy mgr.'s salary. Future CASDEM meeting on district organization structure supporting energy mgmt.
3. Ellison Bruce/Franklin Energy Services, Xcel Energy supporting the Small Business Lighting Program. LED lighting options. Rebates for troffers @ ~\$100-200/fixture. Line voltage variations (120-130V) does impact performance (flicker) & lamp life. High bay & exterior options. DLC compliance for rebates coming. Automatic lighting controls (occupancy & daylighting). Leveraging pricing for rebates (APS example of test school & 5 LED suppliers). Refrigeration Program/LED options for incandescent lamps through Xcel.
4. Summer CASDEM training discussion to occur at a later date
5. PSD Bond update. Presentation will be available on CASDEM web site.
6. Jeni Cross, behavior & awareness. Myths of behavior changes. Using social science techniques to influence change. Denver Water visual on running toilet water waste. Penalize vs. reward (loss averse). Induce commitment-goals! If you want change, be specific & ask. Policy can be effective as well. What works, "other people are doing this". Competition is good. Process matters. No one solution works for all schools or buildings. Rebates to schools-make sure all students & staff are aware of the rebate-celebrate!
