Parking sucks! Sam Crispin highly recommends carpooling! Parking is probably best on the streets within the campus boundary! Sam will send temporary electronic visitor's parking passes for us to display on dash boards. Better parking is available in downtown Golden, there is a short five minute walk to Campus.

## **Mines Parking Instructions:**

Attached is a Visitor parking permit, which is required and must be visible at all times while parked on campus. This permit specifically allows parking in any legal street parking space or in any of our Student/Visitor/General lots referenced with blue lines on the attached map.

For your meeting, you may also park in the north GRL (General Research Lab) parking lot or exclusively in spaces numbered #16-22 at the west end of the Facilities parking lot (V). These 2 lots are circled in red on the attached map. The Meeting will be held in the GRL room 201 8am-11am.

We respectfully request that you observe all campus signs and read the instructions provided on the permit for additional information, if you wish to avoid receiving a citation. Please print and display the permit on your vehicle, where it is clearly visible. We will appreciate your cooperation and hope you enjoy your visit. Please distribute this information to your group.

## **Carpool to NREL:**

At 10:00 we will carpool to the NREL Visitor's Center for our tour.
